PROFESSIONAL AUTOMATIC STEAM IRON STATION

PRODUCT SPECIFICATIONS

AUTO PROFESSIONAL IRON STATION

The newest member to our i series steam boilers, the 8000IS provides continuous steam for an unlimited amount of time when it's hooked up to a direct water line. There's no more down time waiting for the boiler to re-pressurize. The 8000IS is the perfect choice for environments that require large volumes of uninterrupted steam..

IT'S ALL ABOUT THE STEAM

The 8000IS excels at producing quality, dry, pressurized steam. Pressurized steam is the fastest and most efficient way of ironing. It allows the fibers of the fabric to be softened quicker, with the weight and heat of the iron laying the fibers down flat. This creates the crisp and clean finish demanded by professionals.
