

SINGER | Stylist™ Serger

Feature	Benefit
Easy Threading Diagram	The threading diagram shows how easy it is to thread the machine
Color-Coded Lay-In Thread Tension	With complete, easy-to-read diagrams, this feature makes threading your SINGER® Stylist™ a snap. Just follow the color-coded diagram on the machine for effortless threading
4-3-2 Stitch Configuration	The 6 different stitch types ensure the perfect stitch, regardless of the project: Blind Hems, Rolled Hems, Flatlocking, finishing raw edges and joining seams.
1,300 Stitches-Per-Minute	Sews up to 1,300 stitches per minute - a real time-saver
Built-In Rolled Hem	Switching to the rolled hem sewing mode is effortless. An easy access lever moves the stitch finger in position for rolled hemming
Extra-High Presser Foot Lifter	There are 2 heights to the Presser Foot Lifter. The second height offers extra clearance, which is needed when placing multiple layers of fabric under the presser foot.
Differential Feed	Fully adjustable to ensure an even feed for perfect seams on every fabric-no breaking or puckering. It is also useful for keeping stretch fabrics and bias cut fabrics from becoming “stretched out”.
Moveable Upper Knife	Don't want to trim as you sew? Just roll the Upper Knife into the nonworking position and the machine will stitch but not trim the fabric.
Stitch Length Dial	The Stitch Length Dial is conveniently located and can easily be changed to personalize the length of the stitch.

Feature	Benefit
Electronic Speed Control	Guarantees consistent sewing speed with no jump starts.
Portable	The SINGER Stylist has a built-in carrying handle, making it trouble-free to transport the machine.
Free Arm Sewing	Remove the cloth plate to access the free arm, to sew difficult-to-reach areas such as armholes, cuffs and other small areas.
Accessories	All-Purpose Foot, Tweezers, Needles, Spreader, Screwdriver, Foot Control, Power Cord, Instruction Manual, Machine Intro DVD
25 Year Limited Warranty	25 year manufacturer's defects, 2 year electric and electronic components, 90 days parts and labor
Four-Thread Mock-Stretch Stitch	This stitch is a favorite when sewing a knit fabric because the stitch stretches as the fabric stretches. This allows for strong and professional finishes that will not "pop" when the fabric is stretched.
Three-Thread Overlock Stitch	This Three-Thread overlock stitch provides a wonderful professional seam finish to woven fabrics. It is beneficial in preventing loosely woven fabrics from unraveling, and it offers unlimited decorative capabilities.
Three-Thread Mock-Stretch Safety Stitch	This stitch is ideal for finishing fine fabrics or highly stretchable fabrics. The stitch creates a less bulkier seam or seam finish than the Four-Thread Mock Safety Stitch and provides for greater "give" in stretchable fabrics.
Two-Thread Overlock Stitch	This Two-Thread overlock stitch is used as a lightweight seam finish or a lightweight seam on woven fabrics. This stitch creates less bulky seams and seam finishes, which is ideal for sheer or lace fabrics.
Rolled Hem Stitch	By simply moving the Stitch Finger lever, the SINGER Stylist Serger is converted to the rolled hem sewing mode. Beautiful Three or Two thread rolled hems can be created to add an elegant fine finish to table linens, scarves, and much more.
Flatlock Stitch	For true decorative flair on any project. Special decorative threads can be used to add texture and a dramatic embellishment effect.
