

2250IR X-LONG HOSE 220V

COMMERCIAL STEAM IRON

PRODUCT SPECIFICATIONS

For drapery workrooms and garment production. To get professional quality results you need a professional quality iron made with components that will endure the rigours of commercial use. The 2250IR iron is designed to provide quality dry steam, and with its cork handle is comfortable to use for long periods of time.

The 2250IR uses a die-cast aluminum plate with 32 separate steam chambers, which eliminates condensation even when used with an extra long steam hose. A manual reset thermal fuse, and thermostat with heavy-duty round riveted points ensures safety and longevity.
