### PROFESSIONAL STEAM IRON

To get professional quality results you need a professional quality iron made with components that will endure the rigors of commercial use. The i60 iron is designed to provide quality dry steam, and with its cork handle is comfortable to use for long periods.

### 32 CHAMBER SOLEPLATE

The i60 uses an aluminum plate with 32 separate steam chambers, which eliminates condensation even when used with an extra long steam hose. A manual reset thermal fuse, and thermostat with heavy-duty round riveted points ensures safety and longevity.

### FEATURES

- 6.6 lb weight
