DRAPERY BLINDSTITCH WITH SKIP-STITCH

For sewing medium to heavy fabric, with or without black-out, we recommend the MSK-755H. Where productivity, durability and stitch quality are your requirements, the MSK-755H will not disappoint.

QUALITY YOU CAN COUNT ON

Specially set up for drapery hemming, the MSK-755H with "thread nipping device" (to allow easier removal of the hemmed fabric) and heavy-duty fittings (so even the thickest fabrics feed easily) offers the whole package.

FEATURES

- Plunger drop for less vibration
- Adjustable stitch penetration
- SewQuiet DC servomotor
- ÜberLight LED light
- Instruction/parts manual included
- Tool kit and thread stand included
- Individually tested and sewn-off before shipping

Smart. Professional. Reliable. Since 1955.
