THE POWER OF STEAM

The i600A produces 65 PSI of steam pressure and reaches temperatures up to 221° F at the tip. It's ideally suited for use in jewelry stores and work-rooms for cleaning away left over wax, plaster waste and other debris, and for polishing the final product.

WHY CLEAN WITH STEAM?

Steam deodorizes and sanitizes with heat and moisture and since the only ingredient required for the i600A is water, cleaning has never been safer, healthier or more environmentally friendly.

Smart. Professional. Reliable. Since 1955.
