## PROFESSIONAL STEAM BOILER

## PRODUCT SPECIFICATIONS

### PROFESSIONAL STEAM BOILER

The 7500IS is the most flexible boiler in our line-up. Because it has 2 solenoid valves, it can support any two steam attachments including irons, steam brushes and steam guns. It has become the industry standard for those seeking a flexible, high quality, large size boiler.

### IT'S ALL ABOUT THE STEAM

The 7500IS excels at producing quality, dry, pressurized steam. Pressurized steam is the fastest and most efficient way of ironing. It allows the fibers of the fabric to be softened quicker, with the weight and heat of the iron laying the fibers down flat. This creates the crisp and clean finish demanded by professionals.
